

## Need a Breath of Fresh Air? Try the Kitchen: Broan-NuTone® Expands Broan Elite Line Broan-Nutone to debut three signature range hoods to Elite series at IBS 2020

**HARTFORD, Wis.** (January 17, 2020) – Broan-Nutone’s [recent survey of American homeowners](#) show that most are misinformed about airborne [dangers](#) in their homes. With indoor air being up to 80% more polluted than the outside, this is a serious problem. The kitchen is often the leading source of pollution within the house. Without proper ventilation, pollution and destructive particles from cooking can infiltrate a house in minutes.

In an effort to bring fresh air into every home, Broan-NuTone®, the industry leader in residential ventilation and air quality solutions has made best-in-class kitchen ventilation both accessible and beautiful with their expanded Broan Elite lineup of range hoods. The affordable and code-compliant Broan Elite Pyramid, Curved Glass and T-Style models will make their debut at this year’s [International Builders’ Show](#), happening January 21-23 in Las Vegas.

The three new HVI-certified hoods are designed with designers in mind. Each signature model features sophisticated clean lines crafted to fit any dream kitchen at a fraction of the cost.

While these Elite range hoods serve as an eye-catching focal point of the kitchen in their own way, they’re simultaneously engineered to serve as a best-in-class protection point from indoor air dangers. Elite Pyramid, Curved Glass and T-Style models are all equipped with Quiet 400 CFM blower, which operates at a best-in-class 6.5 sones on high and 1.5 sones at normal speed. To ensure the Elite lineup can accommodate any kitchen vision, optional CFM reducers and non-duct recirculation kit and filters are available if necessary, for 300 CFM requirements and/or indoor exhaust recirculation.

All three HVI certified hoods come with LED lighting and quiet operation to enhance both the cooking and overall kitchen experience.

The hoods come equipped with dishwasher-safe deluxe filters with quick-release latch for easy removal.

Their sleek 3-speed capacitive touch control features a smooth, easy-to-clean surface.

**Broan Elite Pyramid** is inspired by traditional European designs. The chimney-style hood comes in stainless, black stainless and white, making it the perfect addition to any kitchen.

**Broan Elite Curved Glass** comes in stainless steel. The eye is immediately drawn to the elegant, curved lines, making this a stunning focal point that could elevate any kitchen.

**Broan Elite T-Style** will give the kitchen a contemporary design, complementing today's most modern kitchens. Offered in stainless and black stainless, its clean lines come together to create the most sophisticated look.

"We truly believe every homeowner should be able to enjoy air quality without sacrificing personal style.," said Brian Wellnitz, marketing manager, kitchen ventilation, for Broan-NuTone. "We're excited to introduce the Broan Elite line additions at IBS this year and share all the unique air quality solutions that make "Coming Home to Fresh Air" possible for homeowners everywhere."

**All Broan Elite rangehoods will be on display at the International Builders Show at the Las Vegas Convention Center at booth #C5223.**
