RoomsideDC Series

RoomsideDC Series

STAYS CLEAN LONGER
BRUSHLESS DC ELECTRONICALLY CONTROLLED MOTOR
ULTIMATE FLEXIBILITY

ROOMSIDE DC SERIES FOR EASY INSTALLATION

Retrofit installations can be done entirely from the room-side – no attic access required. This means a faster, easier installation, so you can move on to something else.

EFFICIENT BRUSHLESS MOTOR DESIGN

Smart, brushless DC motor technology ensures performance requirements are met, regardless of static pressure. That's critical when longer duct runs can affect fan performance. This self regulating technology auto-corrects to deliver specified CFM.

SELECT BETWEEN 50, 80 OR 110 CFM

Select the desired CFM and corresponding sone level based on your needs.

Roomside DC Series for easy installation

Retrofit installations can be done entirely from the room side—no attic access required. This means faster, easier installation even for the most novice do-it-yourselfer; no need to hire a professional.

**NO ATTIC
ACCESS NEEDED**

- Snap-fit Flange Kit will cover the edges of the cutout for a more professional finish and a tighter, leak-free seal.
- CleanCover™ Grille stays clean longer with fewer vent slots to clean
- Quiet fan operation that has multiple sone levels depending on the CFM selected.
- ENERGY STAR® Qualified: The brushless DC motor achieves 90% efficiency so you can feel good about letting it run while keeping the air more comfortable.
- Roomside DC Series installation: For easy retrofit upgrade from the room side with no attic access required
- Roomside DC Series fans provide the most airtight fan housing being 50% more airtight than other brands - resulting in better performance
- Trueseal™ Damper Technology prevents backdrafts
- 4" round duct connector compatible with any Broan-NuTone duct increaser.
- Fits 2 x 6 Construction
